

Marine Sunroofs - Series 80

Integrated Large Roof Design

Series 80

With the Series 80, Webasto offers every customer a fully integrated roof design. Application engineering and close customer communication is key to ensure a perfect fit, and Webasto is here to support.

The roof is delivered fully tested, pre-assembled and ready to be mounted. The Series 80 offers very large dimensions with equally large openings. It is available with a double curved solution and offers fast and simple installation. Its robust and proven construction along with a smooth automotive-style mechanism, creates the ultimate roof solution.

Product Features:

- Fully integrated roof design
- Watertight sealing
- Very large dimensions and opening
- Selection of different panel materials
- Double curved solution is available

Series 80. Customize and make it your own.
